# Continuous Learning in Collaborative Studies – **CLICS**

Project **CLICS** funded by:

**DAAD**

Deutscher Akademischer Austauschdienst  
German Academic Exchange Service

## CLICS Partners

- Karlsruhe Institute of Technology
- Carnegie Mellon University
- Waseda University
- Nara Institute of Science and Technology
- Hong Kong University of Science and Technology

**CLICS:**

opportunities to learn in  
international partnerships  
unencumbered by language  
barriers, distances and life styles

Massive Open  
Online Courses (MOOCs)

The diagram features a central grey silhouette of a globe. Four orange rounded rectangular boxes are arranged around the globe, each containing text. Orange curved lines connect the boxes in a continuous loop: from 'Summer schools' to 'Student and researcher exchange', then to 'Distinguished lectures', then to 'Massive Open Online Courses (MOOCs)', and finally back to 'Summer schools'.

Massive Open  
Online Courses (MOOCs)

The diagram features a central grey globe with white landmasses. Four orange rounded rectangular boxes are arranged around the globe, connected by thick, flowing orange lines that create a continuous loop. The boxes are labeled: 'Summer schools' at the top, 'Student and researcher exchange' on the right, 'Distinguished lectures' at the bottom, and 'Massive Open Online Courses (MOOCs)' on the left. The lines connect the boxes in a clockwise cycle, starting from 'Summer schools', going to 'Student and researcher exchange', then 'Distinguished lectures', then 'Massive Open Online Courses (MOOCs)', and finally back to 'Summer schools'.

Distinguished lectures

# CLICS will create the following MOOCs:

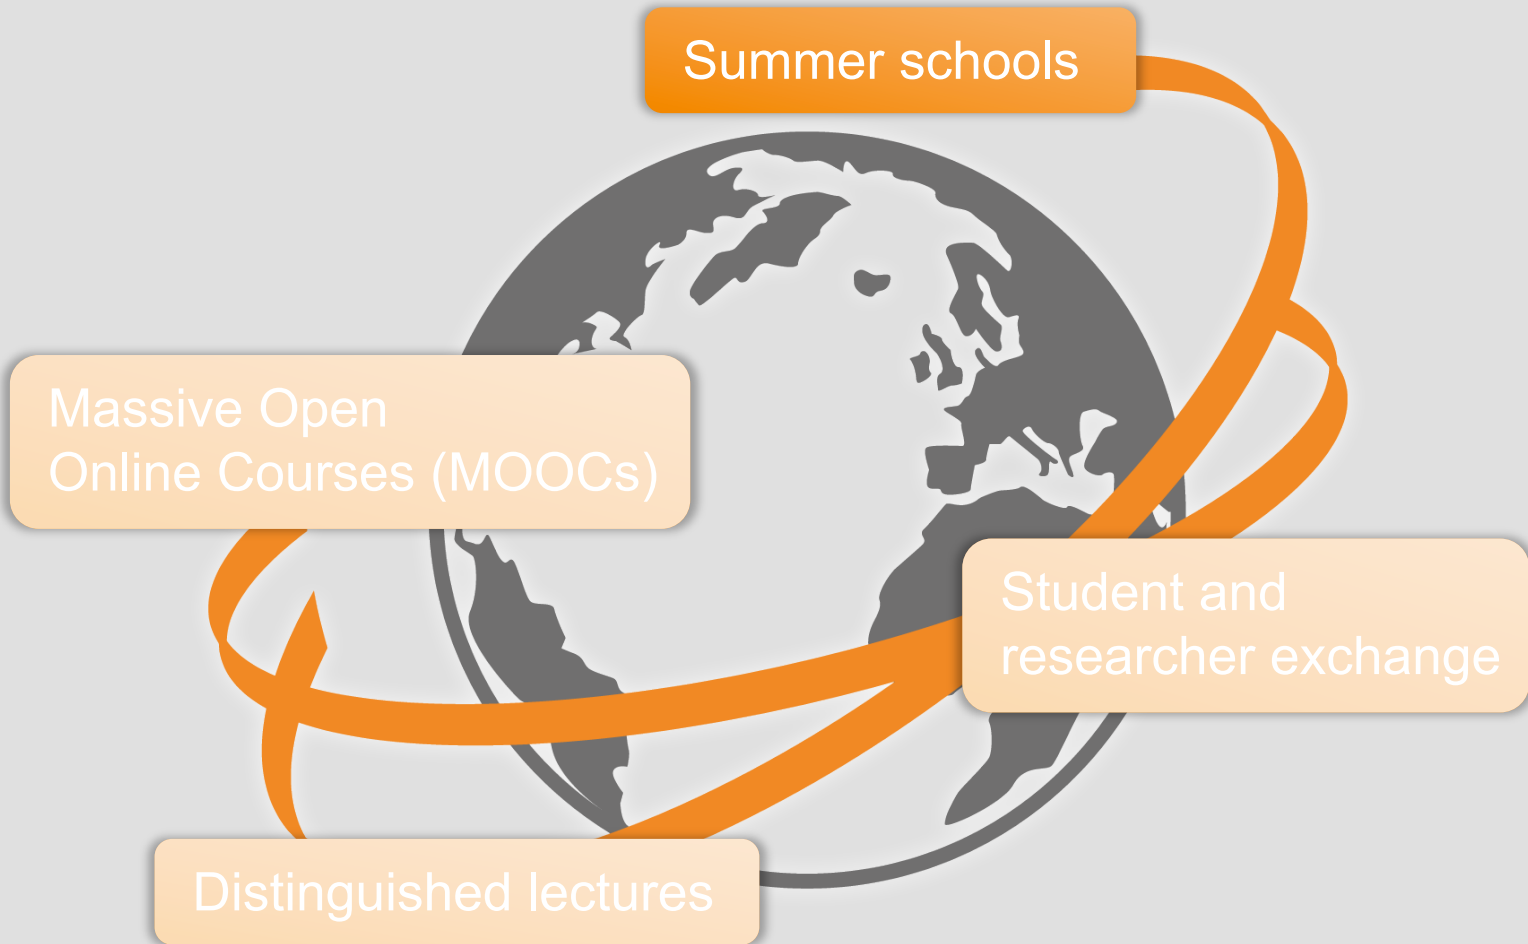

- Speech Recognition (2016)
- Machine Translation (2017)
- Robotics (2018)
  
- Given in English, automatically generated multilingual subtitles.

# CLICS' exchange program at all levels of students and researchers:

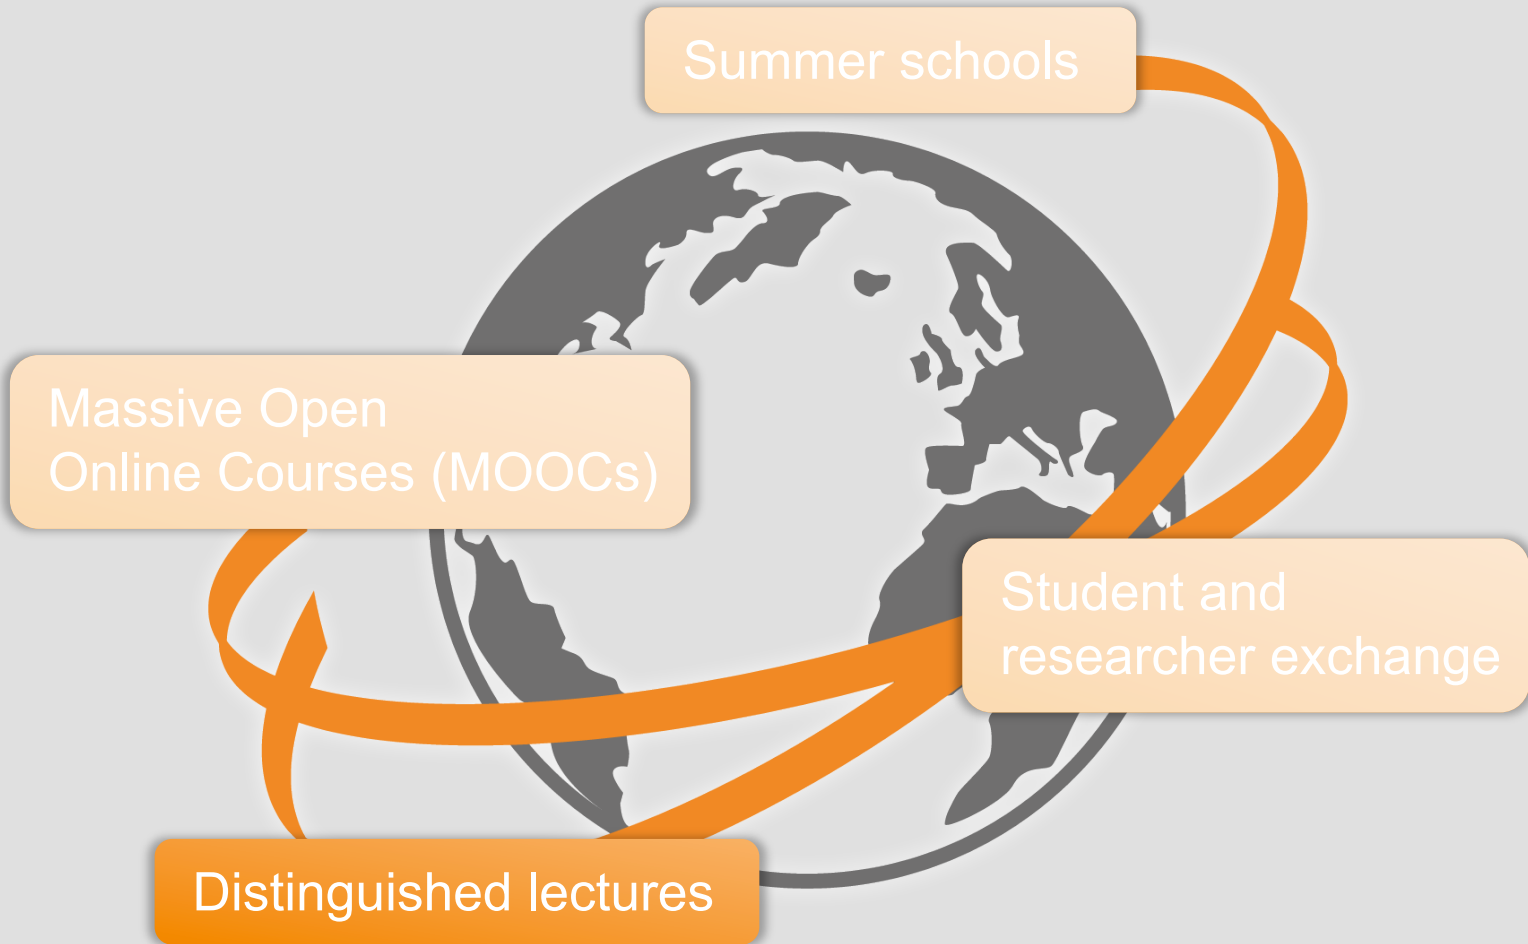

- Bachelor students
- Master students
- PhD students
- Academic staff and researchers

# CLICS summer schools on three topics (accordingly to MOOCs.):

- Speech Recognition (2016), USA
- Machine Translation (2017), Karlsruhe
- Robotics (2018), Waseda

# CLICS' distinguished lecture program:

- Experts from partner institutions give talks and elaborate further cooperation
- For faculty, researchers, students
